Welcome to the Cowes Marine Cluster and our wide range of products and services.

Boat builders, marine industry manufacturers, equipment and material suppliers and related service providers have formed strong strategic alliances and collaborative links, in order to provide solutions to business and the best service to clients.

You will find the highest quality range of boat building and products, from ribs, rowing boats and motor cruisers to catamarans, work boats and world-class yachts.

Cowes is known globally as the home of sailing and also has a history steeped in maritime skills and expertise. If you want a new boat designed and built, or are looking for a particular marine product or service, the **Cowes Marine Cluster** aims to meet your requirements.

Fibreglass, aluminium, wooden and steel boats are all designed and built in Cowes, **Isle of Wight** and the local area. There is also a vast range of marine equipment and material suppliers who work closely alongside the Cluster's members. The Cluster can direct you to a specific company or service, or else work collaboratively on marine contracts and projects, sharing facilities, skilled labour, management expertise and supply chain control, for example.

Berthon Boats, GBR Challenge, GRP Laminates, Harley Race Boats, Offshore Challenge, Ratsey Laphorn Sailmakers, Richardson's, Seaward Marine, Souter Marine, South Boats, S. P. Systems, Spinlock Ltd, Wootton Bridge Industries,

Cowes Waterfront Project Feature

Cowes Waterfront is about planning the future of Cowes, East Cowes and the River Medina Valley as far as Newport Harbour. It is about identifying the function of the area, the contribution it can make to the Island's economy... [>> full details](#)
